

Medium Restoration **\$70.00**

Here is a sample of enhancements that are made to improve the facial qualities. For example lines around and under the eyes or the lines around the mouth that show aging. Creating a brighter smile with whiter teeth can be a plus. By eliminating these facial lines and using enhancements, you can look 10 to 15 years younger. Back ground and color corrections are also important to deal with when restoring photo's to a "like new" appearance.

Heavy Restoration **\$95.00**

Heavy restoration is one of the most difficult tasks to accomplish when restoring your photo. Photo's that have been neglected and stored improperly can be referred to as a real "Challenge". With digital technology they can be brought back to life much like you see in the example below. The Cover shows this same photo only "Colorized".

Special Corrections **\$135.00**

Special corrections are usually the most dramatic because of the changes you see when the photo is completed. One of the most significant changes would be "Colorization" of black and white photo's. Also, when you add or remove people or objects in the photo. Imagine having a background placed behind the people in your photo, that will allow them to appear in a totally different setting than their original photo.
